I TAKE
A
PLEASANT
HERB
DRINK

THE NEXT MORNING I FEEL BRIGHT AND NEW
AND MY COMPLEXION IS BETTER.

My doctor says it acts gently on the stomach, liver
and kidneys and is a pleasant laxative. This drink is
made from herbs, and is prepared for use as easily as
tea. It is called "Lane's Tea" or

Alabastine— Your Walls

Just ask the doctor if there isn't
danger of disease in your walls.
Don't take our word for it—ask him.
Make him tell you.

There is only one perfectly sani-
tary and hygienic wall covering.
That is **Alabastine**—made from
Alabaster rock—then colored with
mineral colorings.

ALABASTINE is clean, because it
is made from pure rock—Alabaster
rock and pure water. It is not stuck
on with sour paste nor smelly glue.

When your walls need covering,
you don't need to wash ALABASTINE
off. Just add another coat, for ALA-
BASTINE is antiseptic as well as
beautiful. The most beautiful decora-
tions are possible with Alabastine.

Any decorator or painter can put it on.
You could do it yourself. Insist on Ala-
bastine being delivered in the original
package. It is your only safeguard
against substitution of worthless kazo-
mines. Write for beautiful tint card
and free suggestions.

If your dealer can't supply you, send us his
name and we will see that you have Alabastine

ORIGIN OF IMAGES UNKNOWN.

Mysterious Stone Figures a Puzzle
to Scientists.

In the National Museum at Wash-
ington, stands an enormous stone im-
age from Easter island. In the south-
ern Pacific ocean. This island is
2,000 miles distant from any other
inhabited spot. There are over 600
of these images on this island, and
formerly they stood in groups of six
and twelve platforms of hewn stone;
but in the later years they were
thrown down during the civil war be-

tween the natives. Most of these
colossal figures are to be found at
the eastern end of the island. They
are hewn out of the volcanic tufa
of an extinct crater and transported
over its sides for three or four miles.

The island is almost treeless and
the wonder is how the savages could
remove objects so fragile, and weigh-
ing from three to thirty tons over
ground so rugged to their destination.

There are now 400 people living
on Easter island, all of pure Polyne-
sian stock. They know nothing of
the erection of these images and it is
quite evident that they are descend-
ants of later immigrants.

This mysterious image was pro-
cured, with many others of ethnologi-
cal interest, during a twelve-day visit
to the island by the United States
ship Mohican, under command of B.
T. Day, U. S. N., in the year 1886.

Highest of Bridges.

The highest bridge in the world be-
yond any question will be the steel
structure now planned for the Zambesi
Falls, Africa. It will be somewhat

similar to the bridge at Niagara Falls,
and will span the great rapids much
as does the structure in America. The
African bridge, however, will not only
be much longer, but much higher than
that at Niagara.—New York Herald.

Paupers Kept in Luxury.

It cost the town of Ware, Mass.,
\$10,000 to support nine paupers last
year, and economical citizens are sug-
gesting that they be boarded at a
first-class hotel.
